Reur 7/6, no further word from Lowenstein but you read my impression correctly. Mac's people here as scheduled. He has just returned. The internal forces there are a factor not to be ignored, as you may recall from earlier notes. Meanwhile unsure of how it will be paid for withour jeocardizing cabality of reprinting earlier books, I'm getting estimates on PM so it may come out. Haven't been able to get to it because of unexpcted tricks in suit and extra McDonald work. JL due here in hour to finish execution of affidavit that has to be filed with our Opposition today. New speed pressure from judge only yesterday. After this calendar call which will likely be more on Tuesday. Hwwever, I'll take it a little easier now. Tired and sleepy. Thanks for the good and entertaining clips Lil has read and I'll give to JL...No date on case vs spies. Those in account are two years or more in the past. Best, HW 7/10/75
